Summary

As a data analyst, I have a passion for turning raw data into meaningful insights that drive business success. I am skilled in collecting, analyzing, and interpreting complex data sets using various tools and techniques, and I thrive on discovering patterns and trends that help businesses make informed decisions.

My expertise includes data visualization, data mining, and web scraping. I am adept at using programming languages such as Python to manipulate data and create visualizations.

Some examples include:
1. As a data analyst intern, I have worked with hospitality data to look at the Average Room Rates of a particular location and help them to make better decisions in choosing the Average Room Rates using past data.

2. Helped in automating the reporting process in Power BI and saved 3+ hours per week.

With a keen eye for detail, I ensure that the insights I generate are reliable and relevant to the business objectives at hand. I also have strong communication skills and enjoy collaborating with stakeholders to understand their needs and deliver insights that help them achieve their goals.

I am always seeking opportunities to learn and grow in my field, and I am excited to contribute my skills and expertise to organizations that value data-driven decision-making.

Experience

Data Analyst
Analytics Station
Sep 2020 - Present (2 years 10 months)

Data Analyst
Analytics Station
Feb 2020 - Aug 2020 (7 months)

Education

Smt. Parvatibai Chowgule college
Bachelor of mathematics, Mathematics
2014 - 2017

M.E.S higher secondary school
Higher secondary, science
2012 - 2014

Licenses & Certifications

Microsoft Excel - Excel from Beginner to Advanced - Udemy
UC-3e647e9d-4af4-43fe-93ba-cd0da0d4aa1e
